

The "Spider-Man 2" Document.

Listing every piece of media with "Spider-Man 2" in the title.

Written by Ultimate Spider-Plush.

RULES:

No Comics (Except for ASM #2 and the Spider-Man 2 Comic Adaptation)

Do you know how many "Spider-Man #2" books are out there? too many.

- No TV episodes.

No 2nd episodes, and no 2nd seasons. (No slightly good advice, not only because it's a show, but also because there's no 2nd episode

- No Fan-Made media.

This is only about OFFICIAL Spider-Man sequels.

Do you think there's a Spider-Man fan film title generator out there? They all have similar titles.

things like "Spider-Man: [WORD] [ANOTHER WORD MAYBE]" or "[WORD THAT'S SOMEHOW RELATED TO SPIDEY]: A Spider-Man Story"

So let's begin:

A few weeks ago, i called Spider-Man 2 a shit movie and i got my ass kicked for it, so i am here to share my thoughts on every piece of media called "Spider-Man 2" (so there will be NO FAR FROM HOME, not because i think it's bad, but because it doesn't have the number 2 in the title.)

So Let 's begin... (FOR REAL THIS TIME)

- The Amazing Spider-Man #2 from 1963.

This is the first spider-man thing related to the number 2.

Written by Stan Lee & Steve Ditko

Art by Steve Ditko

This is the first appearance of birdie and tech alien man.
(Also known as Vulture and The Tinkerer.)

Really good, everyone in the world should read it.

ONE COMPLAINT: the title says "Duel to Death with the VULTURE" but no one actually dies in the story... 0/10.

- Spider-Man 2 (Game Boy)

The story is about Spider-Man getting framed. also Spidey has a headache or something.

I couldn't get past the first level, but I am sure that the rest of the game is easy. The main villain in this game is carnage apparently.

This is the worst game I've ever played. 3/10.

IN MY PERSONAL OPINION, the gameplay sucked, and there are a lot of things that can kill you.

Also the web-swinging is bad, and i hate it.
worst sequel.

- Spider-Man 2: The Sinister Six (Game Boy Color)

This is a sequel to "Spider-Man" for the game boy color. It's not bad, it's just mid, not worth playing after the second level. 5/10.

It uses the same logo as the next game on this list.

- Spider-Man 2: Enter Electro (PlayStation)

This has the same gameplay mechanics as the first one, which makes sense. However I did get a bit bored playing it. 7/10

- Spider-Man 2 (2004)

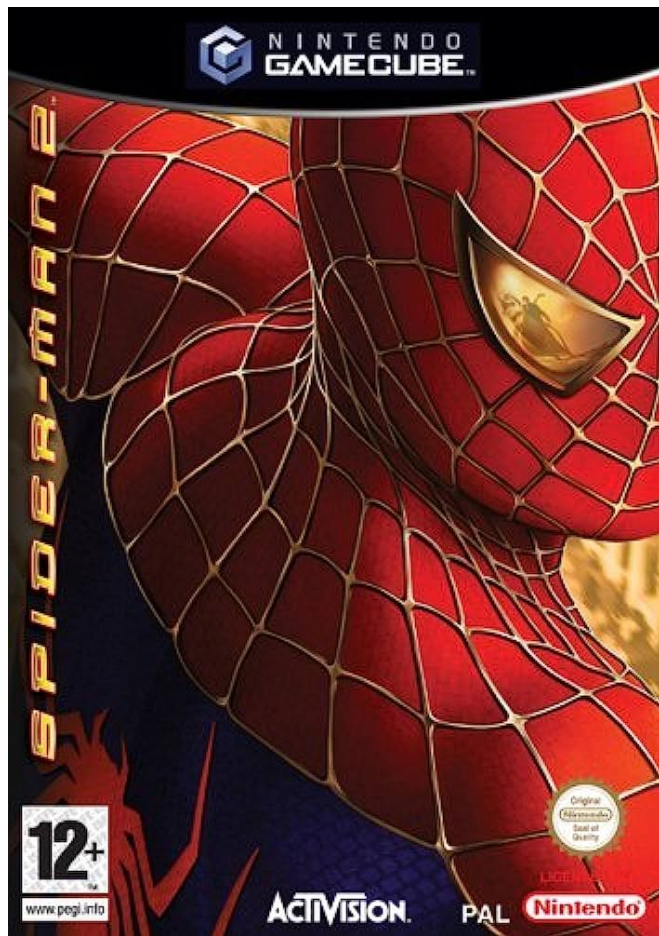

This film is THE SHIT. I like rewatching it on netflix
(They're gonna remove it soon)

The story is about Spider-Man being depressed and also Doc
Ock is there.

The film is pretty good. i don't remember what score i gave
it when i reviewed it on twitter, and i couldn't find the
tweet.

- Spider-Man 2 (Nintendo GameCube)

I am NOT GONNA PLAY THE FUCKING PC VERSION.

OR THE DS VERSION.

OR THE GBA VERSION.

The game is pretty good. The gameplay is just not as good as Ultimate Spider-Man (2005)

8/10

- Spider-Man 2: The Official Comic Adaptation.

It's just like the movie. but in comic form.

And you guys already know what my thoughts are on this movie, yeah that's right, i think it's SHIT (you guys should already know that this is a joke, why do people sometimes take my jokes seriously.)

- Spider-Man 2. The Official Novelization Of The Film

It's just like the movie, but in NOVEL FORM.

Some elements are different though.

I find it stupid that they released the novel BEFORE the actual movie. they couldn't have waited a few days to release it? That 's just dumb.

Enough about this movie, let's look at more Spider-Man 2s.

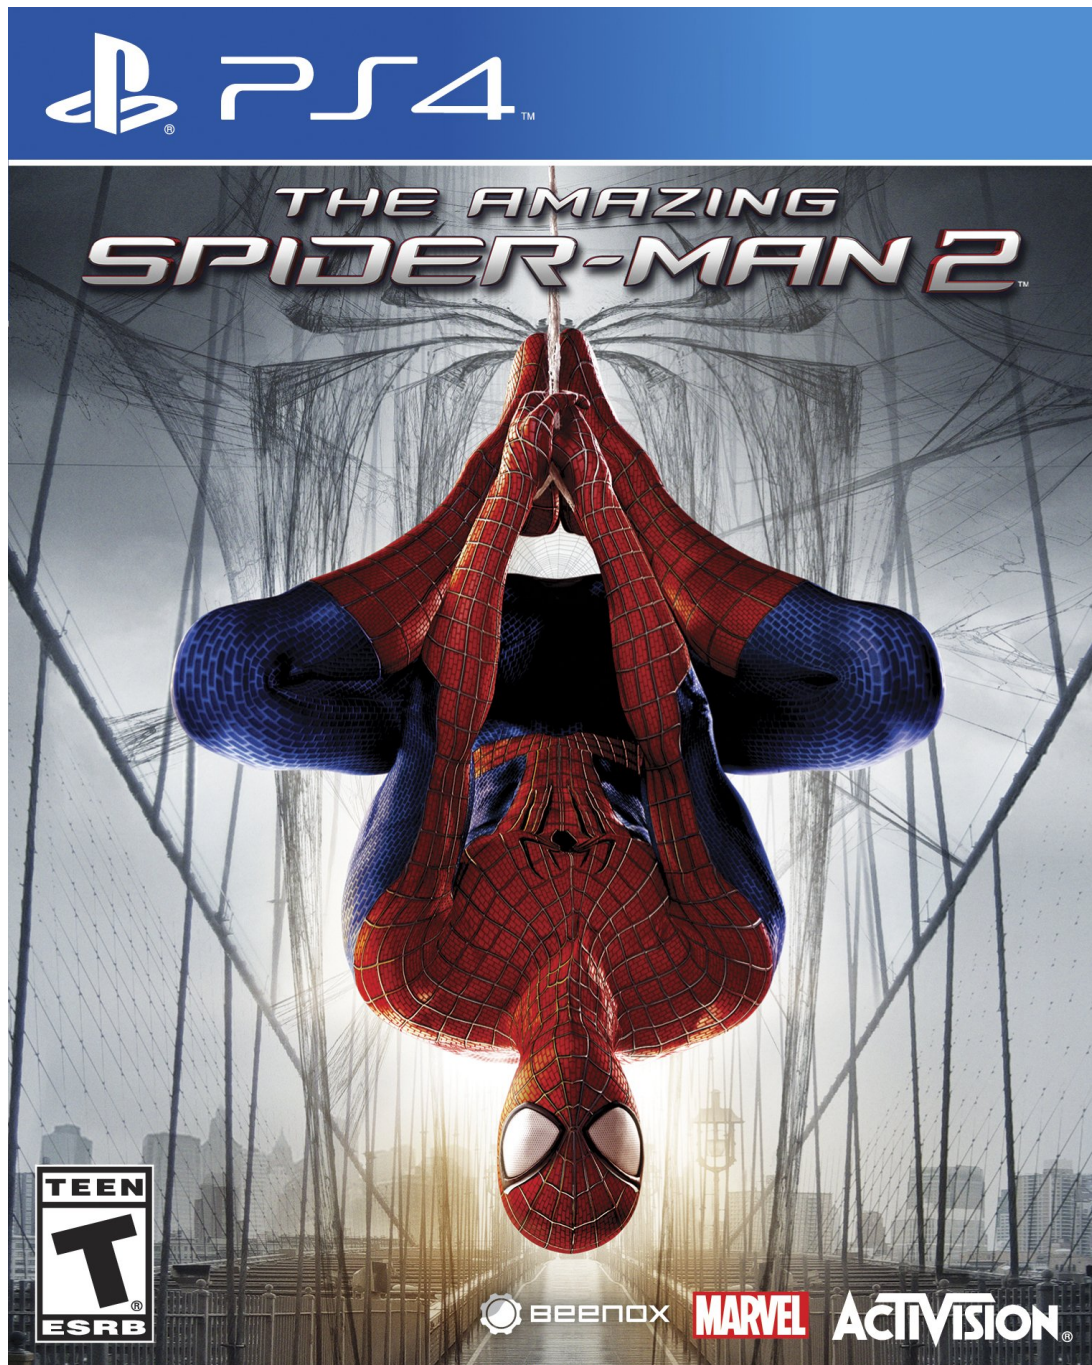

- The Amazing Spider-Man 2 (2014)

Was this really his greatest battle? He fought 3 guys... No wait he fought 2 guys and barely fought 1 guy in a rhino suit...

I really wanted to see TASM 3 but sony's emails leaked and we saw the stupidest ideas ever... And Sony's future with the Spider-Man franchise is not looking very bright nowadays... Maybe it was this movie's fault, but I still love it. once again i don't remember my score so i'll just give it a new score, 80/100

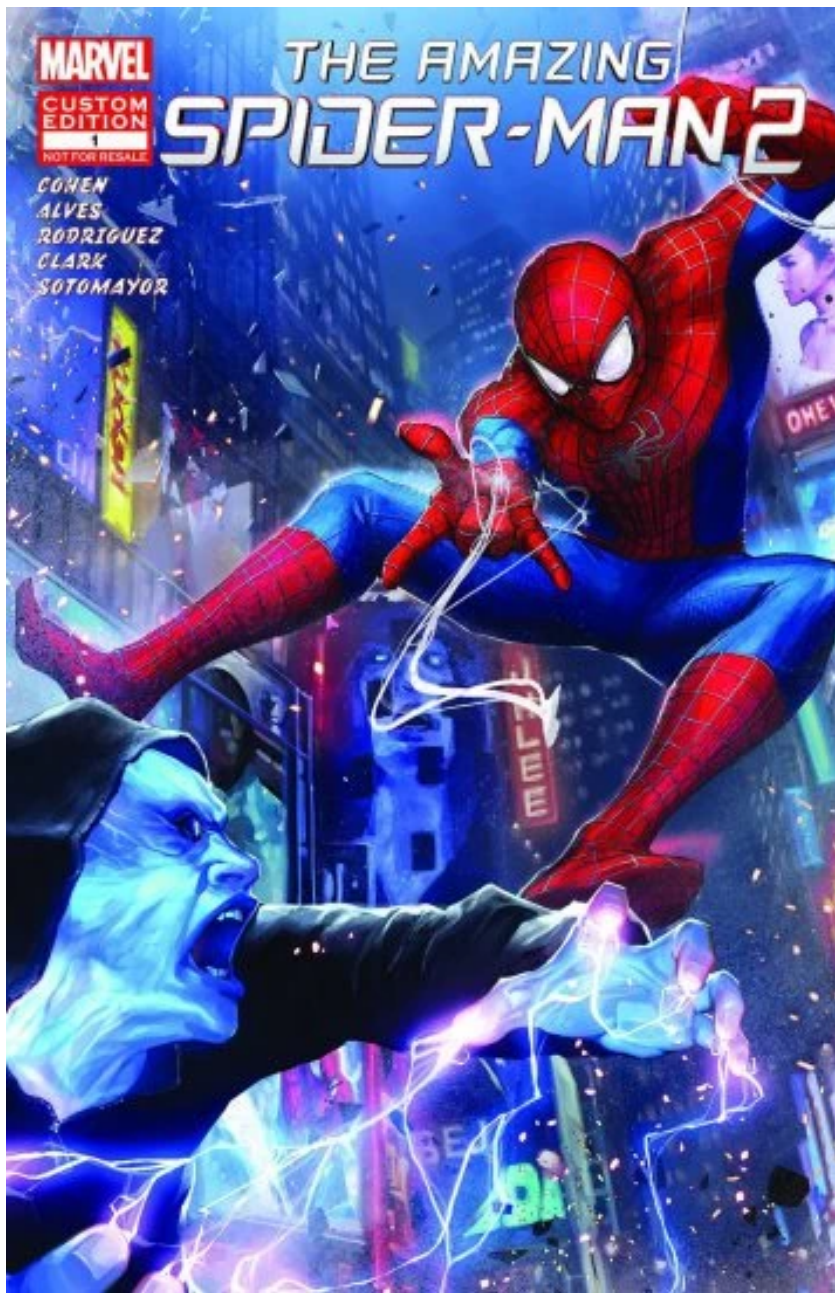

The Amazing Spider-Man 2 (Video Game, 2014)

This was the last Spider-Man game published by Activision before the Spider-Man games became PlayStation and PC exclusives.

I haven't played it. ??/10

- The Amazing Spider-Man 2 #1 (2014)

This comic was in the TASM 2 Blu-Ray, according to the marvel Wiki, this is just a re-telling of Electro's first appearance.

According to a video made by the only person in the world that bought the Best Buy exclusive Blu-Ray, this comic is smaller than your average regular-ass comic book.

Thank you, GorTheMovieGod, for being the only person that actually shared pictures of this comic on the internet.

As of 5/8/23, Marvel's Spider-Man 2 (PS5) has not come out, so I cannot give you my thoughts on the game, and I wasn't gonna give you my thoughts anyway because I am not gonna play it until many years after it comes out.
